

Autism Social Skills Enrichment Camp

A.S.S.E Camp

Camp is a 10 week camp that utilizes teaching interactions and naturalistic discrete trial teaching as its primary method. Camperz will maintain a standard of play/social skills and recreational involvement, all provided in a structured and supportive environment.

- Children ages 5-10yrs old diagnosed with Autism
- Children that demonstrate basic conversational skills, demonstrate basic behavioral control (non-violent), demonstrate the ability to learn in a group setting

Camp Atmosphere

Our facility has air-conditioned classrooms with indoor recreational space. Water Fountains are onsite. Recreational outings and educational field outings are also included, which enables a secure, fun, enriching atmosphere.

Meals

Breakfast, box lunches and 2 snacks are provided daily for all camperz and included in camp fees. Children with food allergies can be accommodated. We encourage children with special diets to bring their breakfast/lunch.

Camp Staff

Team of collaborated educators, mentors, ABA trained staff, and behavioral modification specialist. Who have a passion for helping our youth move their lives in an inspiring and enriching direction.

Personal Enrichment Activities

Personal goals and targets established for each child paired with reinforcement. Activities and personal enrichment lessons include but not limited to developing social skills, self-monitoring of behaviors, self-help skills, arts and crafts, field trips, along with a host of other activities are administered daily.
